PROGRAM GUIDE FALL 1983

"Well Done Radio" by Brian Azzarello

# The importance of being Frank (with the Bongos)

1

A Play by Jeff Wallenfeldt

The Characters:

FRANK GIANNINI, the drummer for the Bongos, Hoboken, New Jersey's favorite band.

JEFF, a programmer with WRUW-FM Cleveland. He is obsessed with Hoboken.

The Bongos have just put out a five song EP, "Numbers With Wings", for their new record label RCA. Richard Gottehrer, who has worked with the Go-Gos, is its producer. The Bongos are working on a video and rehearsing for a tour that will probably bring them to Cleveland in November. Frank and Jeff sit at telephones across Pennsylvania from each other.

FRANK: Hi Jeff. This is Frank Giannini.  
JEFF: Hi Frank. What's Hoboken really like?

FRANK: This is the first time we've really started to rehearse, to try to think in terms of getting together a really good live show in the sense that lights and sound come together.

JEFF: So do you hang out a lot at Maxwell's?

FRANK: We finally worked with a really good producer. The EP has a little something for everyone. It has the rave-up "Barbarella", a real good pop song, "Tiger Nights", that one real nice flowing song, "Numbers With Wings," and the spacey one... What the hell is the name of the second song on the second side?

JEFF: What's Hoboken like? I mean do you see the dB's and Individuals all the time?

FRANK: Right. "Skydiving." I couldn't even think of my own song.

JEFF: How are things in Hoboken?

FRANK: I loved "Nuts and Bolts" (Bongomates Richard Barone and James Mastro's album.) It stayed on my turntable quite a while after it came out. I'm really glad that they did it. We tried to do some of the songs with the band, but it didn't really work out because of the way Rob (Norris) and I happen to play. There are bass and drums on the album, but it's not really the way the rhythm section of the Bongos would play it. But I think the album is great.

JEFF: So would you say Hoboken is cool or what?

FRANK: We'd like to have the best of both worlds. We'd like to do a video that's not just a promotional device, but unfortunately we do have to think about that. We'd like to get on MTV, although we don't like everything that's happening on MTV either... a lot of videos are so formulated.

JEFF: Thanks Frank. Good luck with the EP and the tour.

FRANK: I moved there six years ago. At that point it was still basically a blue collar town: lots of brownstones, small businesses. The only industry is the Maxwell House Coffee factory. Since then lots of New York artists and musicians have moved from across the river to Hoboken. The whole feel and scene of the town has changed. Rents have skyrocketed. It changed for the better and it changed for the worse. I'd like to be selfish about it and let it be my own little place. It couldn't stay that way. It has too much character. Maxwell's used to be a beer and shots saloon. The Maxwell House workers would come over there on a fifteen minute break and then back to work. Steve Fallon took it over and turned it into a really good little music club... You're Welcome.

The Bongos' new EP, "Numbers with Wings", is already on the charts.

## 'Lambda' producers sought

"Radio Free Lambda", WRUW's public affairs show about the gay community, has been off the air for some months. If anyone is in-

terested in taking over production of this show, please contact Judy Schrecengost at 368-2208.

## Attention, space cadets! Hitch-Hikers' Guide to the Galaxy Contest

WRUW is proud to present one of the best science fiction creations ever to hit radio. We will be airing all six episodes of the "Hitch-hiker's Guide to the Galaxy" on Wednesdays at 7 p.m., starting October 5. To celebrate, we are going to give away five "Hitch-Hiker's Guide to the Galaxy" albums, courtesy of Hannibal Records, to the people who can best answer the following questions:

1. Who publishes the "Hitch-Hiker's Guide to the Galaxy"?
2. What words are inscribed on the cover of the Guide?
3. Who invented the Pan-Galactic Gargleblaster?
4. Where is Earth's local Galactic planning center?
5. Of what race are the caterers aboard the Vagon constructor fleets?
6. Who wrote "Zen and the Art of Going to the Lavatory"?
7. What was the name of the infinite improbability drive ship?

8. What is the probability of being rescued from suffocation by a passing space ship after being ejected from a Vagon constructor ship?

9. Who invented robots with "Genuine People Personality" and what was their prototype?

10. Who built the earth?

11. What is the creation story of the Jetrovarted People of Vort Vodel 6?

12. How much does breakfast at Millyways cost?

13. Who is the leader of the plutonium rock band, Disaster Area?

14. Where is the best sound balance at a Disaster Area concert?

15. Who provides the entertainment at Millyways?

Send your answers before December 31 to: Hitch-Hiker's Guide, WRUW-FM, 11220 Bellflower Avenue, Cleveland 44106. In case of a tie, a drawing will be held.

# British Band: Bussing UB40 Style

by Keith Bowman

The British reggae band UB40 finally made its way to Cleveland for its first full tour of the U.S. Although a long time in arriving (refer to Jamaican expression "soon come") they seemed to welcome the challenge of penetrating the reluctant virgin (reincarnated purity) of American popular music. With moderate success of the song, "I've Got Mine" in hand, the confidence and determination of the seven men from Birmingham, England was apparent in a rather haphazard interview conducted in the noisy bus UB40 used to 'see the USA'.

The generosity and kindness of the band hindered my attempts to keep this interview on the usually destined boring formality. Withn the usual misty cloud that surrounds reggae musicians and a few hops-derived beverages, decorum was eliminated early in the encounter. I tried to ask all of the tired questions about politics and social concerns with a new twist, but I think I failed. The important thing is that the band UB40 probably cares just as much about the world condition as their own livelihood. Not a bad balance, and it was hard to argue with people crazy enough to tour around with seven or eight other sweaty bodies in a rather crowded bus.

**"...we don't immediately alienate people by playing obnoxious music people can't get into or dance to."---UB40**

Before I run out of space or succeed in boring you I should let you know that the live show by UB40 at the Pirate's Cove in July was great. Even the legendary musician Taj Mahal, in early for his shows the following night at the Cove, came down to dance and party with UB40 (probably more of the latter). Unable to make sense of significant portions of the interview, I decided to highlight what went on over the roar of the loud, but highly inefficient, air conditioner.

"We say the same sort of things that a band like Crass might say, but we don't immediately alienate people by playing obnoxious music people can't get into or dance to." (Ali--vocals, guitar)

The sound of many beer cans being opened (Earl Falconer--bass). "Put some echo on that...beer can dub." (Ali)

Door to bus opens. "Hey, Frank in there?" "No, 'aven't seen'm."

"If we were writing love songs everybody else in the band would tear the piss out of the person that wrote it." (Jimmy Brown--drums)

"American girls are really promiscuous..."

"We go off on adventures, we don't just get one groupie in a room and queue up like other bands." (Jimmy)

I had a good time, I think they did too. Burp.

## It's A WRUW World We Live In...

...and you, too can be a part of it with goods bearing the official WRUW logo! Now, we haven't gone commercial or anything (although our new line of WRUW AllSports Jog & Swimwear will be in the stores by July 84...just kidding folks).

However, if you want to support us by picking up on one of our goodies, here's the lowdown on what's around.

**T-SHIRTS:** We are currently in the process of changing our T-Shirt design. The new shirts will be red, with the WRUW logo in white on both front and back and should be appearing in December. More on that in our next Program Guide. (We must inform you at this time that our yellow shirts with red lettering are no longer available.)

**BUMPER STICKERS:** Our regular size bumper stickers are also undergoing logo changes and the new models should be out on area cars by November or so. In the meantime, our new baby bumper stickers (1 1/2" by 3 1/2") have arrived!! Real cute to

stick on your wagon, go-kart, stroller, mirror, books, forehead...you name it! They are red with the WRUW logo in white, and are available at WRUW benefits, or by sending a 20-cent stamp to us.

**BUTTONS:** We are happy to report that our 1" red logo buttons were a howling success! We have distributed almost 5000 of them at our benefits so far, and only a few are left. If you didn't pick one up at our shows, you may for a limited time obtain one for a 20-cent stamp and 50 cents handling, direct from us. More may be forthcoming if and when we run out.

**MUGS:** We still have quite a few dishwasher-safe WRUW coffee mugs left. They are also red with a white logo and plastic case, just the thing for your morning-after beverages. To get one, we are asking a donation of \$4.00.

Support innovative radio in your community...display the WRUW logo proudly!

Do Not Read Until December 25th

(w/these instructions,  
it's certain to be read immediately!)

In my meanderings up & down the aisles of many a discount haunt in the beginnings of All Hallow's Eve displays during August, the occasional musak rendition of a Christmas melody lilts through my ears and murmurs from my lips. So let us renew the seasonal expletive deleteds in early (!) anticipation of another resolution to be cheered on January 1st, 1984, w/enough vodka, rum, tequila, oozoo, gin, scotch, kahlua, brandy, sweet liqueur for the not so sweet, saki, whiskey, s-l-i-v-o-w-i-t-z to ease the potential alterations of lifestyle each wish for self improvement might suggest. Perhaps an anticipation of those twelve days of Christmas might make those deep dark cracking nights near October 31st and that flavor scented survival meal of Thanksgiving less time consuming and our time less consumed.

**Learn to accept  
your reward.**

**And dance, dance,  
dance...**

For a swinging Merry Christmas Happy Holy Days, wishes include cable t.v. for the city of Cleveland, a video tape recorder for everybody, WRUW goes satellite (and/or settle for a permanent trust fund to pay our present bills!), a dominatrix/denominator of your very own, hats like Lester Square wears, everyone could get that Howard feeling but it should be very nice, black silk stockings, pictures of (Howard) whomever questions of your temperature incline---not merely head & shoulders but an entire body cast---Supercar, a modern Magnificent Seven---complete w/grand sound track---to rescue you, smartness (and/or a real life editor), everyone has at least one major significant pleasant interlude (ah, to recue!).

Get out the Listerine for a singing mother's dozen:

the sound of One hand aclapping  
a Second chance

## Contest No.3

by Jordan Davis

Double you, are you double you? A schizoid question indeed. While our broadcast frequency resides at the far left-hand side of the FM band, our call letters are found at the opposite end of the alphabet dial. They're not especially flashy, we know, and they can be clumsy at times, but we'd like to dress them up a little bit and give them a chance to show off.

Our contest invitation to you is this: invent a slogan, poem, wisecrack, ditty, or other exclamation that incorporates the letters W, R, U, and W. "We Repair UnderWear" is an old favorite. Dr. Demento donated "We Really Unders-

tand Weirdness." Get the idea? We will choose our favorite entries and record them as station identification announcements. Winners will receive bumper stickers and be acknowledged in the next Program Guide.

Send as many entries as you like to:  
WRUW Slogan Contest  
c/o Promotions Department  
11220 Bellflower Rd.  
Cleveland, OH 44106  
The final cutoff date will be December 31, 1983.

Give three or four homely, neglected letters a chance to shine in the spotlight. Are you willing?

### 7 pm Newsweek FM

Features music and interviews with pop culture figures.

### Midnight Jazz Calendar

Jim Szabo tells you about upcoming concerts and club dates on the Cleveland jazz scene.

## SATURDAY

### 2 pm The Panther Program

And now...presenting one of radio's wildest political comedy programs...Described by the "Boston Globe" as filled with "sarcastic humor that tickles," each program warps today's news into tomorrow's laughs.

"This week," begins the Panther News segment, "we'll visit that fundamentalist Christian elementary school in Most Righteous, Indiana and learned how it handled the heating fuel crisis this winter after they ran out of books to burn."

Taped in front of a live audience each week, the Panther Program has a script and a cast of characters that exude America. Meet Caleb and Maudie, two rural Americans who try everything to strike it rich—from leasing their land as a toxic waste site to renting their basement to neighbors during nuclear attack. And Nigel Biafran-Zani, the foreign correspondent who finds himself each week among a bunch of seemingly half-crazed and illiterate "commies," who somehow turn his thinking around.

Distributed by the National Federation of Community Broadcasters.

### 2:30 pm The Great Atlantic Radio Conspiracy

This revealing show deals with contemporary political and cultural issues. Past topics have included drug addiction, government wiretapping, the draft, and lesbian poetry.

### 10 pm London Wavelength Concerts

Penthouse/Omni Magazine presents modern music artists live in concert, Saturday nights on WRUW. Listen during each week for announcements of scheduled artists.

## The Dr. is In...

The Wizard of Weird, Dr. Demento, will be visiting Cleveland every Tuesday evening from 5 till 7 pm via the airwaves of WRUW. Critically acclaimed throughout the universe, the Dr. Demento show features the most demented of old and new favorites on the craziest two hours to hit Cleveland radio yet. # Contest 2 Results: Giraffe noisier than Montana

by Bob Harris  
(GM and Head Honcho)

Which makes more noise, the state of Montana or a sleeping giraffe?

Er, ah, well, let's see... Is there really any better way of determining which of our listeners are the least likely to suffer from reality fatigue? Probably not. This question has finally separated the spatially distorted from the merely twisted. And it's about time.

Selecting a winner for this one is a bit of a task, but we'll (please note the use of the royal *we*) certainly give it a try. But first, the runners-up (in no particular order):

David Howell  
Victoria G. Landgraf  
Ravel Mauste  
Cynthia Nardis

The authors of these literary masterpieces shall receive WRUW bumper stickers as soon as we get them made up. Thanks to all who entered.

And now, with a slight bit of further ado, the winner, submitted by Susan Van Vleet of North Olmsted, who earned style points for citing Freud (incorrectly, I believe--most turn-of-the-century husbandry research was done by the almost-unborn Jung, in cooperation with

Kafka, Engels, and the Ford Foundation), writing on computer paper, and using exactly 100 words in her essay:

"The giraffe is a lonely, graceful inhabitant of the South-African deserts, its early imperfection being its slight schizophrenic leanings---evidenced by traumatic dreams containing frightful "chase and lure" sequences, as studied by Freud when he lived with them, up to 1908. While experiencing one, a giraffe typically kicks up bucketfuls of fine dust--imperceptible once airborne.

"The dust causes a color-juxtaposition disease afflicting Caucasians (myelitis glaucomatoma), making it painful when they see the colors black and white together. Driven by pain, they separate the two races. In revenge, the blacks blast them with guns and bombs. (Far noisier than Montana.)"

Thank you, all you silly and wonderful people.

## \*\*\*\*\* Minimum Tonic \*\*\*\*\*

by Don Sebian

**SCORECARD:** Well, we're back at it again with a new fall line-up of jazz which should be able to keep abreast of all the new releases from near and far while maintaining a strong coverage of past offerings. Particular musical interests may find satisfaction in specific areas. Fusion interests should check out Pete Lahm/Jeff Bullock on Monday nights from 11 p.m. to 2 a.m.; hard bop is the mainstay on Definitely Downtown, Sundays from 5 to 8 p.m. If your interests are much more experimental in nature, check out Paul Hanson with Evening Shades, Thursdays 11 p.m. to 2 a.m. Big band music shows up on the Swing Shift, Thursdays 10 to 11 p.m. In addition, Peter Petto provides recorded live music ranging from local musicians to national acts on Reel Live Music, Wednesdays 10 to 11 p.m. But you knew that.

**UNUSUAL FROM THE FAMILIAR:** A significant amount of music related to the work of Thelonius Monk has been issued in the past 18 months since his death. Columbia has come out with three double-record sets of Monk-in-action, one "best of" and two live sets, "Live at the It Club" and "Live at the Jazz Workshop", both from 1964. The It Club set really burns and certainly provides new energy to already familiar music.

In addition to these sides, some very impressive interpretative work by other artists is also available. Last year Chick Corea, Miroslav Vitores and Roy Haynes released a two record set on ECM entitled "Trio Music", one record of which features Monk compositions. A recent Max Roach album on Soulnote, "In the Light," provides an outstanding "Straight, No Chaser", while another Soulnote release by Roswell Rudd and Steve Lacy entitled "Regeneration" offers a side of Monk tunes backed by a side of Herbie Nichols. Errol Parker's solo piano release on Sahara, "Tribute to Thelonius Monk" does not offer interpretations of Monk compositions, but rather is a tribute to the tradition of his music.

**NO LINES DRAWN:** That ever evasive musical category that lies in the DMZ between modern music and jazz has produced several interesting tidbits in recent months. The most successful is the debut of the Microscopic Septet on Press Records, "Taking the Z Train". The LP is comprised of compositions by Phillip Johnston (soprano sax) and Joel Forrester (piano). The tunes all exhibit interesting changes, tempos, and some real hot solo work. The Lounge Lizards (major personnel changes in tow) present their second LP in the form of "Live From the Drunken Boat". This LP actually seems closer to the mark than their first, which is probably due to longer tunes (a chance to stretch out and all that) plus lightening up a bit

on the density of their sound. This stuff appears very promising, but I wish they wouldn't feel obligated to be so heavy-handed. Finally, the Golden Palominos have come, dare I say, galloping onto the scene with their OAO/Celluloid premier. Dominated by percussion and "Frith-esque" dabbling, the Palominos have slowed things down since their early tape session that gave us our first exposure. These guys are definitely NOT cashing in on the dance music craze. A good test for your woofers.

**IS THIS 1973?** The ten year stereotyped soliloquy regarding the lack of big name innovative jazz per-

formers in Cleveland must be regarded as obsolete. The early part of this autumn featured a jazz schedule that threatened to drain most proletarian nest-eggs, including shows by Chico Freeman, Lonnie Liston Smith, Paquito D'Riveria, Stan Getz, et al. In addition, there are many outstanding local musicians at area clubs to catch in your spare time. Detailed information can be obtained from the Jazz Calendar, Friday at midnight on Down By the Cuyahoga, hosted by Jim Szabo. Also, the Northeast Ohio Jazz Society (NOJS) will soon have a JAZZLINE operable on (216) 421-2266.

# 8 MAILING LIST POLICY:

From time to time, listeners write in asking to be put on the WRUW-FM mailing list. We are sorry, but this is impossible, as there is no listener mailing list at this time. We do not have the facilities or manpower to keep up such a list.

For our listeners who want to receive program guides on a regular basis, they are available around January, May and December by sen-

ding one 20 cent stamp and your name and address to WRUW, 11220 Bellflower Rd., Cleveland 44106. These are a one-time-only deal and listeners must send in for them each time they are issued, or pick them up in local stores around Cleveland. Again, we must remind you that we have no regular listener mailing list for program guides or any other releases.
